Each and Every One a Speed Shell

The speed that breaks your targets nearer the trap. That's why Remington-UMC Steel Lined Shells have won 13 out of the 15 Handicaps held in the last three years.

The speed that gets that mile-a-minute "duck" with a shorter lead--that's why it takes over 50,000 dealers to handle the demand for Remington-UMC Steel Lined Shells.

The shooting fraternity are speed wise. They know loose smokeless powder won't drive shot. They know that the drive depends on the compression.

The powder charge in Remington-UMC shells is gripped in steel. This lining is designed to give the exact compression necessary to send the load to the mark quickest. It insures speed--the same speed in every shell.

The steel lining is moisture proof--no dampness can get through. Jar proof--no powder can get out. Waste proof--no energy is lost.
